

DOCTOR WHO

14 X 25 MINUTES

In 1988 that mysterious Time Lord, Dr Who, celebrated his 25th birthday. Sylvester McCoy returns as the hero of the world's longest-running science fiction series. He and his new companion, tomboy Ace (Sophie Aldred), are set to confront an exciting new selection of inter-galactic adventures.

SYLVESTER MCCOY AS THE DOCTOR AND SOPHIE ALDRED AS ACE

The series takes the Doctor and Ace back to London in 1963, where his adventuring began — he has to deal with some unfinished business involving his old adversaries, the Daleks. Among the other weird and wonderful things the dynamic time-travelling duo have to contend with are a circus of death and a terrible and evil oppression that lurks behind the happy facade of the people of Terra Alpha.

This remarkably popular series is watched by millions of people worldwide. The Doctor's charisma has triggered off a score of active fan clubs around the globe. The man who started off as a fuddy-duddy old grandfather has gone through many changes — including cosmic hobo, gadget ridden dandy and heroic preppy — in fact, a total of seven different characters and faces. Sylvester McCoy brings his own special brand of whimsical humour to this most sought after role.
